# Success Stories

## Isla™

**Whiskytree** - a content creation firm specialized in production and computer graphics.

Whiskytree deployed Isla to meet their stringent security requirements mandated by their clients; and to provide a secure web browsing experience, similar to any other browser.

### Results

- Isla deployment helped provide same experience like any other web browser
- Helped meet all the tough security protocols mandated by their clients
- Created a secure environment to ensure safety of intellectual property

## IAM

Designed and built an end-to-end security solution for a leading banking consortium that facilitated secure information exchange between producers and consumers as part of the KYC effort

For a global leader in Ratings, we designed and built a comprehensive platform to help manage the lifecycle of user access for applications to meet regulatory requirements

Worked in implementing and maintaining Provisioning, Custom authentication framework based on Kerberos and fine-grained authorization solution for applications at a leading British Bank
